

Ardi Sandiaga Zuhdi

Network Engineer

Profile

Motivated and detail-oriented Network Engineer specializing in routing, switching, and network security. Skilled in configuring, managing, and troubleshooting Cisco and MikroTik environments. Passionate about designing stable, secure, and scalable network infrastructures while continuously improving technical expertise through professional certifications.

Certificates

MikroTik Certified Network Associate (MTCNA)

#2411NA9391

MikroTik Certified Routing Engineer (MTCRE)

#2412RE5907

Cisco Certified Network Associate (CCNA)

Technical Skills

Networking:

EIGRP, OSPF, VLAN, STP, NAT, HSRP, GRE Tunnel

Security:

Firewall, Access Control Lists (ACL), VPN Configuration

Hardware

Cisco Routers/Switches, MikroTik Routers

Tools:

Cisco Packet Tracer, Pnet, WinBox

Other:

Network Documentation, Troubleshooting, Linux Basics

Projects

EIGRP Advanced Lab: Implemented multi-area EIGRP routing with redundancy, load balancing, and route summarization to optimize network traffic."

MikroTik Routing Project: Engineered multi-branch connectivity using OSPF dynamic routing and secure Site-to-Site VPN tunnels (IPSec/PPTP).

Cybersecurity Lab : Developed Zone-Based Firewall policies and advanced ACLs to mitigate unauthorized access and secure internal network segments.

Competition

Finalist - National Networking Competition (NETCOMP) 4.0 by **Universitas Gadjah Mada**

Participant - Informatics Open Network & IT Competition by **Politeknik Elektronika Negeri Surabaya (PENS)**
